EDUCATION

The MDT Hindu College, Pettai — BCA

June 2021- May 2024

Dedicated and results-driven BCA graduate with a solid foundation in programming, software development, and Web development.

PROJECTS

Event Management System (EMS)–Build using PHP,My SQL

The Event Management System (EMS) is a tailored solution designed for event management companies to efficiently handle event bookings while providing exclusive access to company administrators for overseeing all booked events. With EM, your company can streamline the event booking process, manage event details, and ensure seamless coordination with clients, all through a user-friendly interface.

Technologies Used:

- Backend: PHP
- Database: MySQL
- Frontend: HTML, CSS, JavaScript
- Payment Gateway Integration: Razorpay.

Portfolio Website– *Build using HTML, CSS, Java Script*

Developed a personalized portfolio website to showcase my skills, projects, and professional background. The project aimed to create an online presence for personal branding and to demonstrate proficiency in modern web development technologies.

Technologies Used:

- Frontend: HTML5, CSS3, JavaScript
- Backend: Not applicable (static website).
